Sowing innovation, harvesting impact !

WWW.ENTAGRICO.COM

Healthy seeds, healthy harvests, a healthy future: that is our promise.

01

Who we are

ENTAGRICO is an agro-industrial company operating in strategic agricultural value chains in Benin. Its model is built on integrating planting, production, processing, livestock farming and marketing, with an approach focused on quality, sustainability and local value creation.

The company aims to contribute to food security, to adding value to local produce and to the professionalisation of agricultural sectors, while creating direct and indirect jobs in rural areas.

OUR MISSION

To sustainably produce, process and market high-quality agricultural and animal products.

OUR VISION

To be a leading player in sustainable, integrated agriculture in Benin and West Africa.

02

Our values

01	02	03	04	05
Sustainability	**Innovation**	**Social impact**	**Integrity**	**Knowledge sharing**

05

Achievements and social impact

01 Hectares of cashew and rubber trees already planted

02 Hectares of cashew seed orchards and rubber budwood gardens

03 Development of farmland in Djidja

04 Contribution to rural employment (permanent and seasonal workers)

05 Training young people in agricultural entrepreneurship

06 Rural infrastructure (boreholes, farm buildings)

06

Ongoing projects and outlook

01 Development of hundreds of hectares of rubber and cashew trees

02 Setting up a soybean processing unit (oil, soybean meal, flavoured soy milk)

03 Expansion of livestock farming and beekeeping

04 Use of solar power for irrigation and energy self-sufficiency

05 Creation of an integrated agricultural training centre

07

Competitive strengths

01	Integrated approach to the agricultural value chain (production, processing, training)
02	Modern equipment suited to agricultural mechanisation
03	Strong social impact on local communities
04	Multidisciplinary team (technicians, veterinarians, mechanics, managers)
05	Large-scale projects under way (rubber, cashew, soybean)
